

Livescribe™ Connect™

Easily send notes and audio to people and destinations all from your paper.

Livescribe Connect for your smartpen makes sharing simple. Just draw a line and write “send”. Tap the pages you want to send – your notes and audio are automatically sent as an interactive audio PDF file called a pencast.

Send pencasts to destinations like Email, Facebook, Google Docs, Evernote and even your mobile device. Select entire sets of notes or just a section of a page to send. You can also send to these destinations within Livescribe™ Desktop. Simply drag and drop your pages to quickly send them where you want.

With Livescribe Connect and your smartpen, you can easily share notes or collaborate with others, or even send a quick interactive message to your friends. All from your paper.
